THE EFFICIENT WAY FORWARD

EXCELLENT FUEL EFFICIENCY

Highly efficient electric motors combined with an advanced rapid charging Li-ion battery.

Intelligently shuts off the petrol engine when unnecessary such as during urban commutes and stop-and-go traffic.

MAINTENANCE-FREE HYBRID BATTERY

More compact with enhanced cooling ensures reliable performance across a wide range of severe temperatures.

All without compromising luggage capacity. Designed to last the life of the vehicle.

INTELLIGENT SELF-CHARGING

Continuous power regeneration while driving and braking. No plugging, no waiting, just seamless charging as you drive.

GREAT HANDLING STABILITY

Engineered for better stability and ride comfort. With a lower centre of gravity through the strategic placement of the hybrid system.
